Dokonoko official site

Dokonoko is an app for allowing people to know dogs and cats more intimately. If you start uploading the photos you take, and add comments to them, a “book” will begin to grow inside the app. As Dokonoko app users increase, users are able to see the lives of even more dogs and cats. Over time, users will

increase their dog and cat “acquaintances” from a wide world of users. After all, it’s easier to feel more intimate with a cat or dog that you know than with one that you don’t know. Dokonoko also helps owners with missing pets. You don’t need to be a pet owner to enjoy Dokonoko!
